

# Triad InCeiling Bronze/8 LCR

The InCeiling Bronze/8 LCR is the perfect solution in applications where front speakers must mount in the ceiling and a modest price is a consideration.

A unique recessed angled baffle directs sound at the listener through a handsome flush Acoustimesh grill that can be custom paint matched at Triad to match your ceiling and blend with your environment. Although it's priced like more ordinary home theater speakers, the InCeiling Bronze/8 LCR is still built one at a time and features premium drivers and an enclosure that is sealed and solid as a bank vault.

When mated to Triad Bronze Surrounds and any one of our Bronze Sub versions, the InCeiling Bronze/8 LCR is the heart of a superb home theater system at a reasonable cost
